New Listings

In **2015**, Airbnb reached the **highest** number of new listings. 2016 and 2017 saw a restraint also due to a tightening in local regulations. Despite this, Airbnb became **profitable** in the second half of 2016, and 2017 marked the first full year of generating income. From 2018, there was a new growth stopped in 2019 by the **COVID-19** pandemic.

airbnb Performance Dashboard

Market Share by City

Paris, NYC, and Sydney account for almost half of the total listings and 48% of total reviews.

Paris is the city with the most listings and reviews. A possible driver is the prices for hotel rooms being twice as much as Airbnb!

Ratings

Mexico City and Rio are the overall best-rated cities, HK and Istanbul the worst ones. Cleanliness and value for money ratio are the two metrics generally scoring the lowest.

Review Frequency

Reviews provide information about the **customer order frequency**. Most, of the customers wrote a review **only once**. **98.8%** of customers did so **3 times or less**. One customer wrote **283 reviews**: last two on 13-Oct-20, of two listings in Bangkok. (Data error or globe-trotter?)

Seasonality

Paris and **Rome** dominate review share from **April to August**, reflecting peak European summer travel. **New York** saw an increase in November and December during the holiday season.

Trust

Over two-thirds of Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal, keeping unverified and anonymous profiles to a minimum.
